- Pencils and erasers should be brought to class every day

Intro to Art
- Pencils and erasers should be brought to class every day

IB Visual Art HL

It is recommended that families provide space in their homes for their students to work on their art projects. Some suggestions for this set-up include:
- A tarp, old rug, or old bedsheet to catch messes and drips on the floor.
- A table or desk where students can set up their supplies.
- A light that can be moved or adjusted as needed.
- Your student's choice of preferred supplies. Some will be provided by the school, but it is helpful for students to have their own stuff to work at home.

8th Grade Supply List
